

AAON LN Series Chiller is Winner in *ACHR News* 2014 Dealer Design Awards

TULSA, OK--(July 22nd, 2014) - AAON, Inc. (NASDAQ: [AAON](#)) was recognized for excellence in product design in the 11th annual Dealer Design Awards Program sponsored by *The Air Conditioning Heating & Refrigeration News* magazine. An independent panel of contractors acted as judges in the contest that had 92 entries. The company's LN Series Air-Cooled Chiller was the Silver Award Winner in the HVAC Commercial Equipment category. *The ACHR News* is the leading trade magazine in the heating, ventilating, air conditioning, and refrigeration industries.

News Publisher Mike Murphy stated, "These awards give us a unique opportunity to recognize the outstanding research and development efforts that go into many of the products serving the HVACR industry and the awards issue gives our readers an opportunity to read about innovative installation and service solutions."

The AAON LN Series is an energy efficient chiller unmatched in performance and serviceability. Standard features include double wall rigid polyurethane foam injected panel construction, high efficiency microchannel air-cooled condenser coils, and isolated service compartments with lockable hinged access doors. With optional features such as variable speed scroll compressors, variable speed condenser fans, and variable flow pumping packages the LN Series is an ideal solution for any chilled water application.

"The recognition of the LN Series in the 2014 Dealer Design Awards highlights the great work of our employees and demonstrates our continuing commitment to designing and engineering innovative and high value HVAC equipment," said Norm Asbjornson, President and CEO of AAON.

Winning entries in the Dealer Design Awards are featured in the July 21, 2014 issue of *The ACHR News*, which is distributed nationally to over 33,000 HVACR contractors, wholesalers, and other industry professionals.

About AAON

AAON is engaged in the engineering, manufacturing, marketing and sale of air conditioning and heating equipment consisting of standard, semi-custom and custom rooftop units, chillers, packaged mechanical rooms, air handling units, makeup air units, energy recovery units, condensing units, and coils. Since the founding of AAON in 1988, AAON has maintained a commitment to design, develop, manufacture and deliver heating and cooling products to perform beyond all expectations and demonstrate the value of AAON to our customers.
